REMOTE VIDEO PRODUCTION

Our thing

No time to travel? No problem!

Our entire focus is to deliver high-quality video production, **all done remotely.**

REMOTE KITS

- Perfectly packaged kits that raise the bar on remote video production
- Variety of Kit options for every price point and filming need
- Door-to-door shipping and logistics to make it easy and seamless for the end user
- Tons of kits in our inventory so we can handle anything you throw at us

TECHNICAL SUPPORT & MANAGEMENT

- Our seasoned video producers and techs remotely support everything – from technical setups to recording sessions
- Need White Glove Service? No Problem! We can provide local techs to do the heavy lifting
- Deep bench of techs/producers to handle the largest of productions
- Support and services managed by our experienced traffic managers running proven processes

VIDEO EDITING

- Experience: We've got it!
- Editing videos is our wheelhouse
- In just this past year alone, we've edited over 1,000 individual business presentations, at various levels of complexity
- All managed by our content producers / traffic managers who drive the process and keep large projects moving forward

Kit and caboodle

REMOTE KITS

We offer a variety of remote video production kit options to meet your needs. Check out the lineup!

Pro-Kit

A-Kit

B-Kit

Pro-Kit: Stats

What it's All About

Think of the 'Pro-Kit' as a more streamlined and cost effective alternative to sending a full ENG Crew

(2) Sony A7iii 4K Camera Packages (including upgraded lens & camera tripods)

Exclusive speaker support monitor for teleprompter script, speaker notes, face-to-face recording

Lighting Package includes (2) Front Lights and (2) Back Lights

Audio Package includes (1) Shotgun Microphone on boom stand, plus (2) Wireless Lavs

How to Go About It

Can be set up in less than an hour by only one Tech

Minimal disruption vs. what you would normally expect with a video crew

Also works well for shooting two people in an interview or panel scenario

Pro-Kit: Quality

Take a Look at You Now

2-camera setup provides multiple shot angles to choose from during post production

All the benefits of an ENG crew without the disruption

4K video resolution allows for flexibility in editing

Shallow depth of field background delivers a cinematic look and feel

High-quality lighting provides warm skin tones

A comfortable and focused speaker makes eye contact, and eye contact equals audience engagement

Sample screen grab from Pro-Kit video footage

Pro-Kit: In Action

A-Kit: Stats

Tools of the Trade

Exclusive table-top speaker support monitor for teleprompter script, speaker notes, face-to-face recording

Sony Alpha Series 4K camera w/ upgraded lens

Apple MacBook Air

Professional microphone for high-quality audio

Lighting package with (2) front lights

Easy to Use

20-30 min setup for first-time user

Tabletop footprint only 3' x 3'

A-Kit: Quality

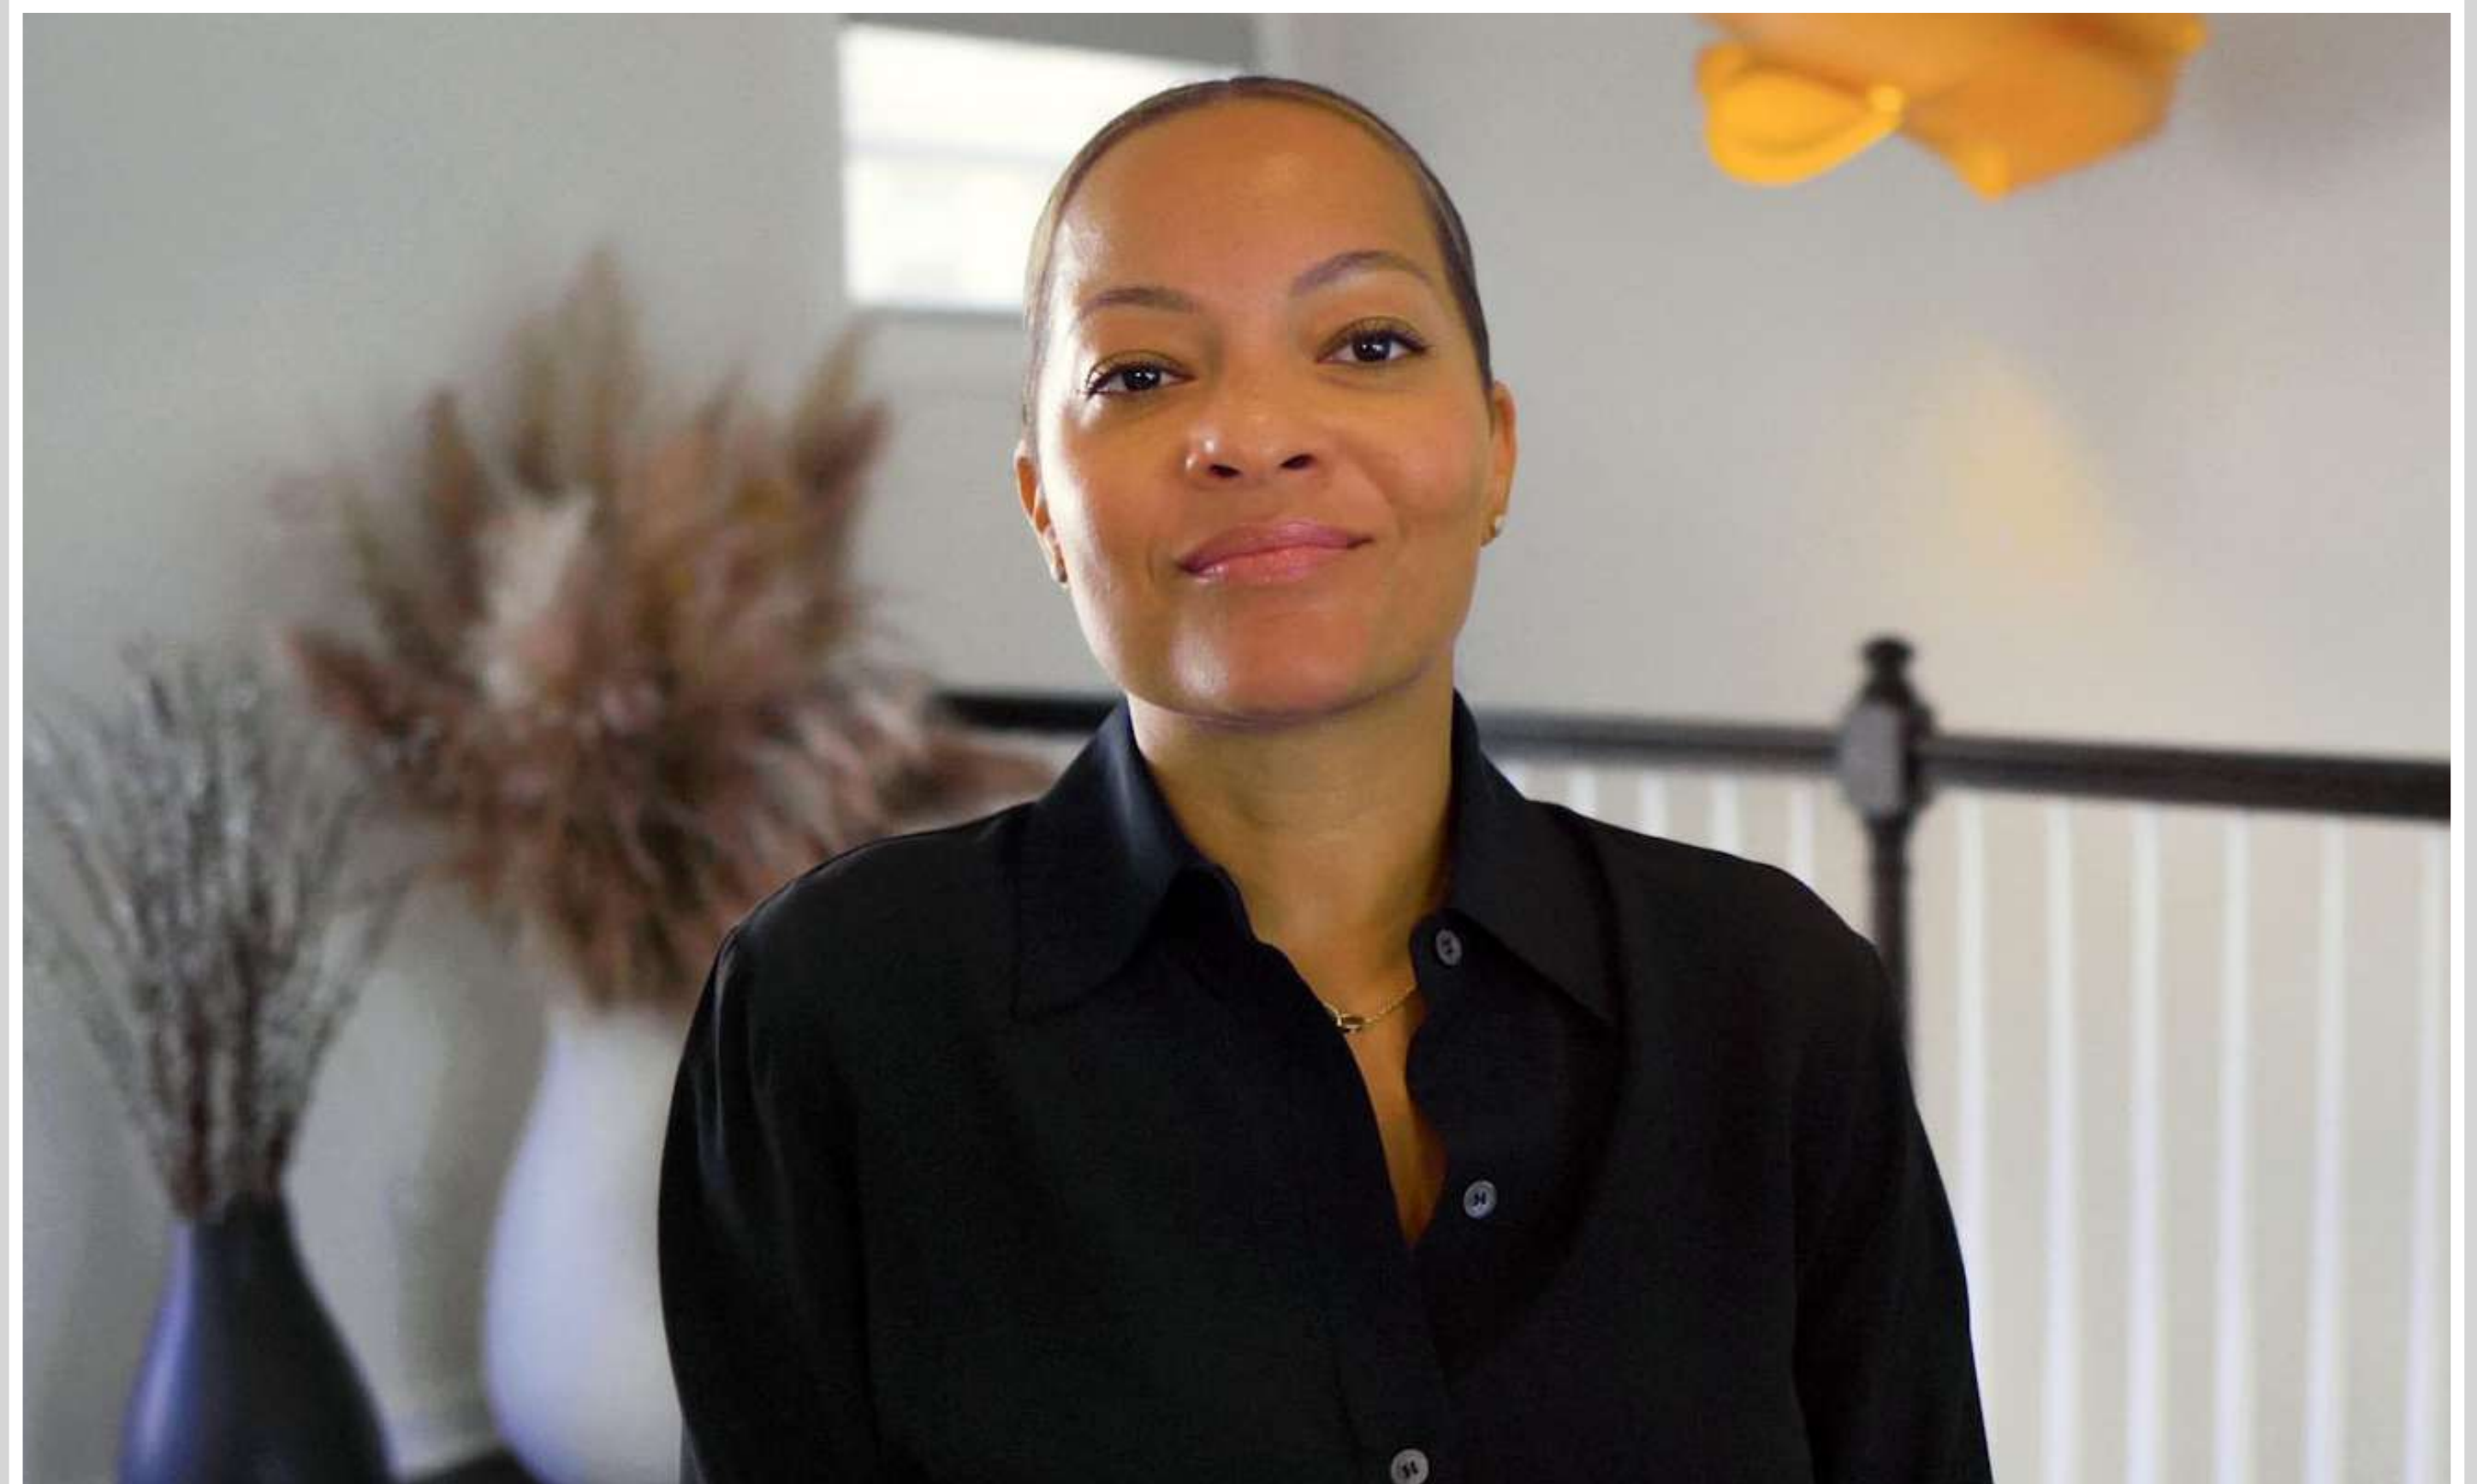

Proof is in the Image

4K video resolution allows for flexibility in editing

Shallow depth of field background delivers a cinematic look and feel

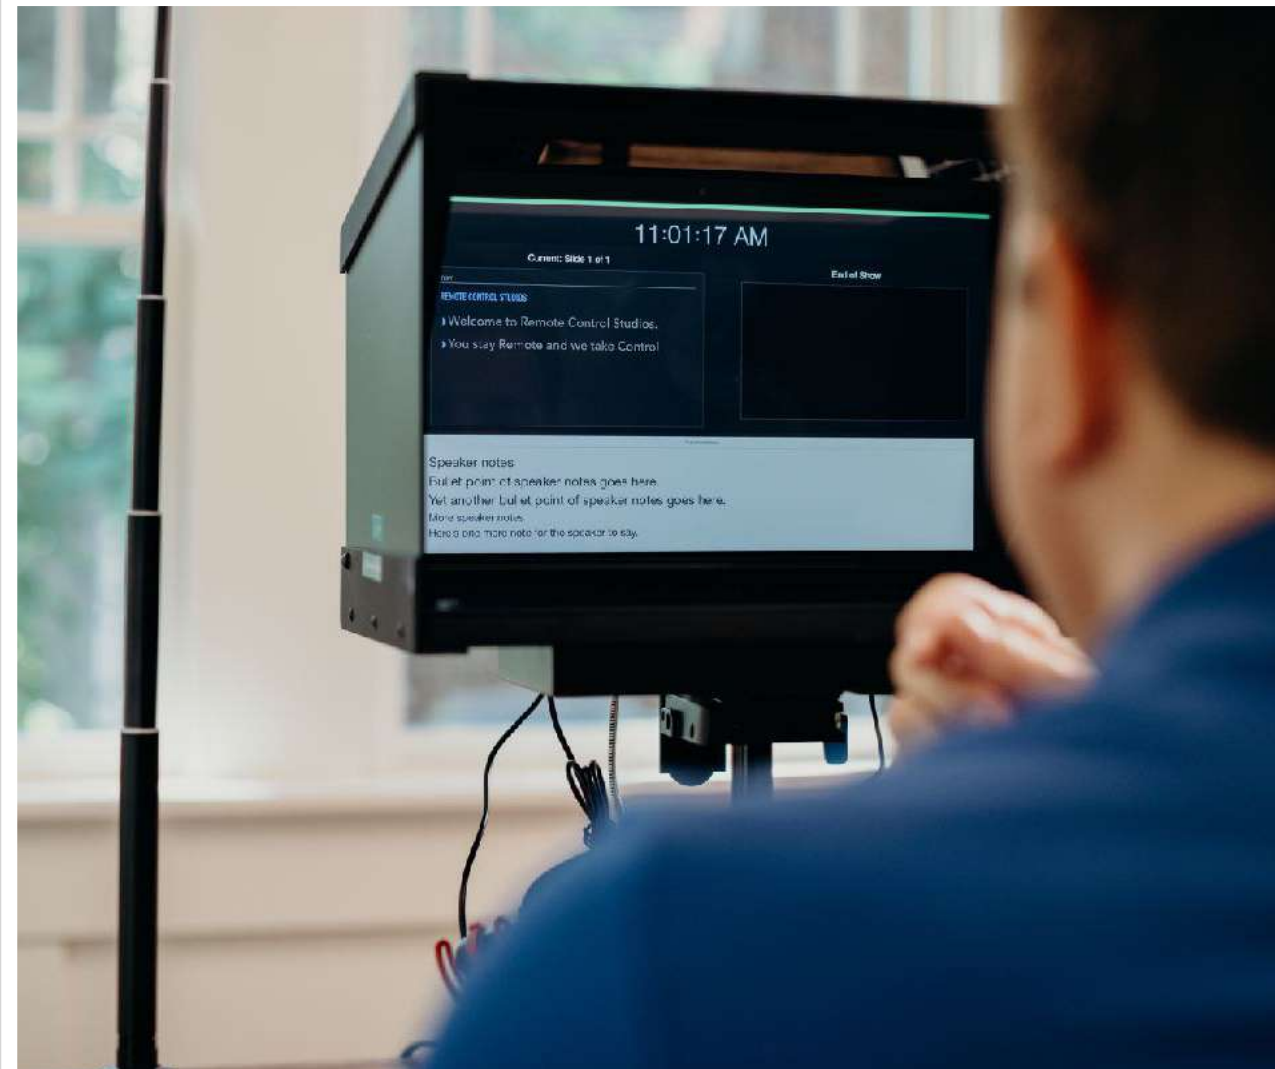

High-quality lighting provides warm skin tones

A comfortable and focused speaker makes eye contact, and eye contact equals audience engagement

Sample screen grab from A-Kit video footage

A-Kit: In Action

B-Kit: Stats

Gear Up

Professional microphone for quality audio

Lighting with (2) front lights

MacBook Air Laptop

Get Going

10-15 min setup for first-time user

Discreet tabletop footprint of 2' x 2'

B-Kit: Quality

Seeing is Believing

4K video resolution allows for flexibility in editing

Shallow depth of field background delivers a cinematic look and feel

High-quality lighting provides warm skin tones

Comfortable and focused speaker

Main comparison from the A-Kit

Similar image quality

Quicker/easier setup

Does not include teleprompter monitor

Sample screen grab from B-Kit video footage

B-Kit: In Action

B.2-Kit: Stats

Stand Up

Sony Alpha Series 4K camera w/ upgraded lens

Rode Shotgun Microphone

Lighting with (2) front lights

MacBook Air for remote communication with camera

Be Seen

20-30 min setup for first-time user

Freestanding model for location versatility

FRIENDS DON'T LET FRIENDS USE WEBCAMS

Standard built-in laptop webcam

Thanks a million
